

S4D GRASSROOTS CENTERS CONCEPT

OUR GOAL

S4D aims to create a safe, friendly, and supportive atmosphere as well as to offer equal opportunities and possibilities for local and refugee children of various age groups, regardless of their gender, social and cultural backgrounds to participate in sport of different types.

OUR APPROACH

Sport for development project – **S4D**, employs proven educational methods that promotes physical and mental development of children and young people by using interactive educational tools, and through an official curriculum.

In addition to focusing on the capacity building of coaches (female & male) in various levels of experience (beginners or professionals) through introducing a proper guidance for the implementation process of S4D approach (S4D Pathway).

FAIR PLAY

S4D – Promotes fair play and adhere to the main S4D principles (respect, tolerance, discipline, empathy, fair play, and self-confidence.) through weekly regular training sessions, fair play tournaments, S4D festivals and highlighting special occasions covering wide areas of the country.

OUR FUTURE

S4D – Expects sustainable impact by working with sport federations and associations along with national and international organizations, by adapting and implementing S4D methodologies in their own strategies and plans and as a result of sharing knowledge, experiences and competencies.

In addition to our well-equipped Youth Leaders, whom their main role is to adhere S4D principles and provide needed support to the implementation of Grassroots Centers, representing a living example of good citizenship and giving back to their communities.

IMPACT STUDY

S4D – Adheres the importance of monitoring and evaluation as a system, therefore by the end of 2022, the Project will approve the long-term impact and effectiveness of Sport for Development approach through scientific impact research.
