The workshop met my expectations.  
The participants received the opportunity to participate actively during the workshop.  
The Master Trainers (MTs) were well prepared for the workshop.  
Physical Education (PE) is very important for all children’s development, for girls as well as for boys.  
PE should be practiced in every girls’school.  
I know how to promote the social development of girls through sport activities/games.  
I know how to adapt the PE curriculum to fit girls’ needs.  
I know what the difference between sport and PE is.  
PE is as important as other subjects in school.  
I know how to convince school principal, other teachers and parents that PE is as important as other subjects in school.  
The most important goal of sport in schools is for school teams to win.  
Play and games are more important for younger children than learning a sport.  
I know which sport activities/games are suitable for different age groups.  
I know how to implement new sport activities/games in my PE lesson, so that all the children understand them easily.  
I know how to adapt sport activities/games so that it is possible for all children in class to participate.  
New equipment and an indoor gym are required
for girls sport to work, without them teachers cannot do anything.
